

pro(arc

Practical solution for kitchen corners

Whether for symmetrical or asymmetrical corners – the pro(arc tray system fits corner cabinets in modern L and U shaped kitchens and offers various custom options – such as colour, edge and surface design – and it looks great in any corner. An optional non-slip foil is available and prevents the stored items from sliding around.

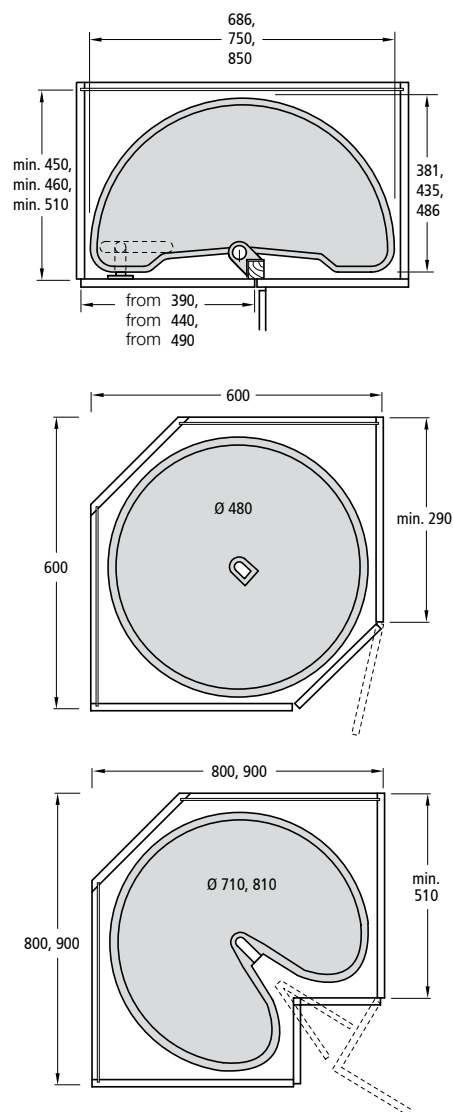

1. pro(arc) tray in aluminium grey with non-slip foil
2. pro(arc) tray in dark grey

pro(arc for symmetrical and asymmetrical corner cabinets

- Optimum utilisation of the storage space in every kitchen corner
- Ergonomic access thanks to pull-out or revolving trays
- Timeless design which matches akIS and modul under oven plinth drawer
- Surfaces loadable up to 25 kg thanks to solid underside ribbing
- Optionally with integrated non-slip foil as well as edge profile or chrome rail
- Wide fitting range available for all established cabinet heights and different corner situations
- Compatible with the mondo and PowerSlide corner cabinet systems

Finishes

- Shape: Semi circle, Full-round, With recess
- Colours: Dark grey, Aluminium grey
- Non-slip foil: Without foil, Metallic, Dark grey
- Fitting: Tube fitting (incl. catch), Rotating fitting, Brake fitting (synchronously rotating trays)
